Danish Production & Flexible Customization

The Ono SVF with
walnut armrests.

Craftsmanship
since 1919

With more than 100 years of experience in craftsmanship, we manufacture the furniture in Denmark at our own workshop in the city of Vejen.

Ergonomic designs

Our furniture is developed in close collaboration with occupational therapists, physiotherapists, and leading Danish designers.

Customization

As every piece is made-to-order, we offer great flexibility, accommodating individual desires for customizations and additions.

Responsibility and
quality

Responsible production is at the core of the company. All pieces are made in certified European solid oak or beech and is crafted using traditional techniques, ensuring the highest quality and prolonged lifespan.

Each chair is assembled with water-based glue, dowels, double tenons, and finger joints. No screws are used, eliminating the need for subsequent tightening.

The furniture can withstand heavy usage, and a 5-year warranty is provided on all wooden frames.

The Ono Series

The Ono SVF tilted with walnut armrests.

Ono SVF features gliding brackets, allowing the backrest to smoothly tilt backward and the seat to slide forward. The adjustment is seamless and responds to the user's weight.

The gliding brackets can be securely locked in any position. While the seat angle remains constant, tilting the back backwards creates a wider side angle for enhanced comfort.

About the Ono series:

The series comprises a range of sturdy and ergonomically correct models with various features, designed by Friis & Moltke. Each chair is carefully proportioned to ensure a harmonious balance between comfort, design, and functional requirements.

Furthermore, the series is extremely stable, offering excellent user support and seating comfort. The chairs remain steady during use and when leaned upon, without the risk of tipping. The light, Nordic design with clean lines and minimal seams ensures optimal hygiene.

The series is available in certified oak or beech, with a variety of optional features. Ono SVF is available with elegantly crafted walnut armrest. The series is manufactured at our workshop in Vejen, Denmark.

Tested and approved by the Danish Technological Institute for stability, safety, and durability. The following models hold Möbelfakta certification: Ono-SVF, Ono-SV, Ono-SJ, Ono-L.

Further information can be found in the product sheet.

"We are proud to have a company with a long history and ongoing Danish production. Being closely involved in the process allows us to guarantee timely quality deliveries and steady supply."

Hans Henrik Sørensen
Co-founder of OneCollection

The Ono Series at Nygård Nursing Home, Sandefjord

Nygaard Nursing Home includes a 'dementia village' and consists of both new construction and rehabilitation on the site of the existing Sandefjord Nursing Home. The new nursing home section caters to 72 people with dementia, while the entire facility offers accommodation for a total of 180 residents. The new building was completed in March 2022 and it built in solid wood.

The Ono SV at the Nygård Nursing Home.

"We have selected Ono for Nygaard Nursing Home because we knew that by choosing this chair, we received a quality product, delivered safely and precisely, at the agreed time. The choice also fell on Ono because the chair has a simple design, which at the same time is really comfortable to sit in. The furniture is durable and made in a way where our staff do not have to tighten screws. It also matters to us that the chair is flexible in terms of additions and omissions."

Cathrine Prestbøen, Project Manager & Interior Designer on the Nygaard Nursing Home

About the Designers Friis & Moltke

The FRIIS & MOLTKE architectural practice was founded in 1954. From the very beginning, the mission has been to create value for society through development, dialogue, and innovation. Based on extensive knowledge and experience, FRIIS & MOLTKE creates beautiful, useful designs for everyone, aiming to develop and translate ideas to benefit the future.

Onecollection A/S is a Danish furniture company founded in 1990 by Ivan Hansen and Hans Henrik Sørensen. Both founders still passionately run the company to this day. Based in Ringkøbing on the west coast of Denmark, the company's headquarters, production facilities, and warehouse are all located together.

Determined to preserve and expand the rich tradition of Danish craftsmanship and local production, OneCollection acquired the renowned, Vejen-based Danish solid wood manufacturer, Schou Andersen Møbelfabrik A/S in 2022.

Founded in Vejen in 1919, Schou Andersen Møbelfabrik has a legacy spanning over a century. Today, merged with Onecollection A/S, the company has continuously evolved its furniture portfolio and Danish production facilities, adeptly meeting the evolving needs of the market.

The company specializes in high-quality solid wood furniture, primarily tailored for the healthcare sector.

Additionally, the world-renowned classics designed by architect Finn Juhl are also produced at the furniture factory in Vejen.
